

# 8 Reasons to Move to the Cloud

## 1. REDUCE COST OF OWNERSHIP

Reduce capital expenditure outlays and resourcing costs associated with managing on-premise infrastructure.

## 2. ANYTIME, ANYWHERE

Improve business agility by enabling staff to access business systems as and when they need - on any device.

## 3. REDUCE COMPLEXITY

Empower staff with intuitive, familiar technology that is simple to learn and use.

## 4. REDUCE RISK

Seamless delivery of disaster recovery with high availability, world-class infrastructure and full redundancy.

## 5. STAY UP TO DATE

Automated upgrades ensure the organisation has seamless access to the latest software with minimal disruption.

## 6. SECURE

Fully protect your business systems and data integrity with enhanced security layers and multi-step 2-factor authentication.

## 7. INNOVATE

Focus organisational effort on higher-value strategic initiatives to drive improved performance and productivity.

## 8. SCALE WITH EASE

Enjoy the flexibility to easily and quickly scale computing requirements with optimum system performance.
